Edit 12/2019

AOR 12 PIN PLUG LEGEND V3-3.2		
Pin Position NO.	Circuit Description	Conductor Color
1	Left-Hand Turn Signal	Yellow
2		
3	Earth Return	White
4	Right-Hand Signal	Green
5	Services Brakes	Blue
6	Stop Lamps	Red
7	Clearance Lamps, Side Lamps and Rear Lamps	Brown
8		
9	OPTIONAL Break Safe Monitor Wire	Purple
10	Disk brake actuator power supply Negitive OR (* ESC power Supply Neg OPTION)	Black
11	Disk brake actuator power supply Positive OR (* ESC power supply Pos OPTION)	Red
12	** Ignition Switch Wire	Black

* ESC Power Supply as STANDARD runs to a RED Anderson plug. However, ESC can be arranged to terminate in 12 Pin plug. This requires an inline switch to be fitted in Dash. Drum brake system only.

** Ignition switch wire must be included for ALL vans for safe and reliable function of options and digital switching system.
Please contact AOR for more information.
