# 12 great reasons to join the AOR family

When you buy an AOR, you buy more than just a trailer.

## 1. Stay connected

Keep up to date with AOR and the family. Follow us on social media and join the AOR owners Facebook group.

## 2. Become a member

Our Owners Forum is a great way to get involved in the community. An invaluable platform to ask questions and gain insights from vastly experienced owners. From setting up your tow vehicle to looking for the best camping spot, our Owners Forum covers almost every topic.

## 3. Have complete confidence

With 3 AOR Service Centers and an Australia wide network of over 50 approved service agents, you can have complete confidence travelling in the toughest elements.

## 4. We back our product

Every new AOR comes with a 12-month parts and labor warranty and a promise that your new trailer is free from workmanship or material defects. The chassis and suspension comes with an extended 5-year warranty.

## 5. Wealth of knowledge

From checklists and maintenance to recalls and safety information, the AOR Knowledge Centre provides access to a range of important know-how's and to-dos.

## 6. Join the adventures

Sit back and watch incredible travels from the AOR community on AOR TV. Experience superior quality and comfort to truly get remote off road and discover new places or revisit your favourite spots.

## 7. Meet the family

Our wonderful owners hold annual rallies around Australia. Tagging along to an AOR Owner Rally is a fantastic opportunity to explore this great country, while catching up with old friends and making new ones.

## 8. Ambassador program

If you are passionate about your AOR, we're always looking for brand ambassadors! Rewards for referrals or lending us your trailer for display at shows! Our owners are invaluable to us.

## 9. Producing with purpose

We all care for our environment and want to experience pristine areas of our beautiful country. Put your mind at ease knowing our off road vehicles

minimise the environmental impact of your adventures.

## 10. The creative heart of the off road industry

We are leading

innovators in the industry. Everyone innovates the products they produce, but innovation must be tightly controlled. Innovation is accomplished in baby steps, followed by rigorous testing and implementation of new production systems to support the manufacturing processes, otherwise quality will suffer.

## 11. The best of the best

When you sit in our trailers you relax because everything fits so beautifully.

This feeling stays with you during ownership and beyond. In a quality product, form is used to enhance but not intrude on how an object functions. It's easy to make ugly, it costs more to achieve simplicity in function and beauty in form.

## 12. 100% Australian made

Made in Australia, built for the outback. We have 85 employees and proudly design and manufacture our trailers in our 5000m<sup>2</sup> purpose-built factory on the Sunshine Coast. You're welcome to pop in for a tour!

## What makes a quality off roader?

### BODY WIDTH & TRACKING

Designed with a 1950mm wide body, our trailers are built to follow your 4WD down tight bush tracks. The wheels follow along the tracks of your 4WD. Avoid getting bogged and punctures on those tough tracks. Paired with extreme exit and entry angles, you can get to your favourite remote campsite with ease.

\*The Aurora is the exception at 2100mm wide.

### MAXIMISE FUEL EFFICIENCY

The class leading and cut aways of our trailers maximize fuel efficiency. The quality lightweight materials we use to build the bodies are carefully selected to resist the harsh forces and vibrations of prolonged outback travel.

### LIGHTER AND STRONGER

Our trailer bodies are lighter and stronger than ever. We are constantly developing state of the art materials. We are and will continue to be at the forefront of design in the industry.

### REMOTE CAPABILITY - BATTERY, SOLAR, TOILET

With huge solar and battery capacities, our trailers are built to stay off road longer. Each trailer is fitted with 300-480 watts of solar and high capacity lithium or AGM battery banks, coupled with the REDARC RedVision and FinScan syetems. Connect multiple charging sources to maximise charge amps when you need them most. Combined with the huge 140L macerator toilet system, you won't need to go near civilization for weeks on end.

### LOAD CAPACITY & STORAGE

Designed with load capacity in mind, you can take all your water and gear for your long trips up the beach or to the bush. With a payload between 600kg to 900kg (depending on the model), you won't have to worry about fitting in all of your gear! Each trailer is designed to maximize storage and space, from the nose cone to cupboards, soft close drawers and platform bed design. Optional foldaway firewood racks and bike racks are also available.

## Resale

We consider the resale value of our car when making the decision to buy new or second hand, so why not our camper? We're proud to say that our trailers have the highest residual resale value in the industry. Our superior quality build and exclusivity creates a value for money product, meaning your investment maintains its value. You can confidently reinvest in our products. Most of our owners continuously upgrade their trailers.

## Take only photographs, leave only footprints

### Travel consciously

Our trailers minimise environmental impacts.

### Our unique "Nomad" toilet system

Take your toilet wastes with you to dump at a council dump point.

### Our water storage systems

Travel remote for extended periods with up to 340L of fresh water.

### Solar capacity

Stay in remote areas with self-sufficient solar.

### Weight and width

The laminated high-tensile steel chassis and aluminium and fiberglass body construction minimise weight to maximize fuel economy. Tracking behind your 4WD minimises the impact on track conditions.

### Take your rubbish with you

Environmentally friendly garbage storage bag attached to spare wheel covers.

### Firewood

Bring your own firewood in our firewood storage rack.

### Manufacturing waste

From laser and water cut components to recycling, our systems are designed to minimize our waste.

- ✓ Independent suspension
- ✓ Large amounts of solar power - 300 to 480 watts
- ✓ High end electrical management systems
- ✓ After sales service and warranty
- ✓ Great sense of community and involvement

# Common questions answered!

## NEED MORE SPACE FOR THE FAMILY?

The Quantum Plus and the Matrix Pop Top are the most popular choices for families. The extra internal space allows for a dinette, extra storage, large capacity solar system and up to 340 litres of water (perfect for remote camping areas). The standard features are a full-size Queen bed with 3 optional bunk areas.

*(QUANTUM PLUS, MATRIX POP TOP)*

## ARE YOU A COUPLE THAT LIKE TO KEEP IT SIMPLE?

The Odyssey, our 11ft lightweight camper, has a genuine 30-degree exit angle suitable for towing with a medium size 4WD. It has a 1440kg tare and 105kg tow ball weights, full off-road chassis and suspension. The Odyssey is luxury camping in its simplest form. Whether you're touring the outback or 4WDing up the beach, it's built to handle the off road tracks with ease. It also features an external lift up shower pod for convenience.

*(ODYSSEY, QUANTUM)*

## LIKE THE IDEA OF A LIFT UP BED?

We have two models featuring a lift up bed. The Odyssey for the compact traveller riding solo or as a couple, and the Eclipse if you're looking for something a bit bigger with generous under-bed storage to store your family's gear. In both models the unique lift up bed design, when positioned in the "Day Mode", converts to enormous internal space providing a four-person lounge/dinette. The Eclipse also allows for an optional bunk, which is perfect for the travelling family.

*(ODYSSEY, ECLIPSE)*

## ENOUGH FOR NOW, BUT MIGHT NEED ROOM TO GROW?

The Sierra is our most versatile trailer, designed with growing young families in mind. It comes standard with a double bed in a secure bunker style cabin. Easily option up when the time comes with a range of roof top tents, something to suit every family.

*(SIERRA)*

## LIKE TO COOK INSIDE?

The Aurora, Matrix range, Eclipse and Odyssey provides all the creature comforts of home with stylish European décor, large water storage plus an advanced solar system. The icing on the cake of this design are the two extremely versatile kitchen areas. A large internal kitchen with stainless steel sink, drain board with hot and cold mixer tap, large preparation areas, a 3-burner gas stove with glass top and a 130L upright fridge/freezer come standard. External sliding stainless steel shelf to suit optional BBQ. Various optional kitchen designs available varying by model, includes additional gas bayonet.

*(MATRIX, MATRIX POP TOP, ECLIPSE, ODYSSEY)*

## LIKE TO COOK OUTSIDE?

For lovers of the outdoors, the Sierra, Odyssey and Quantum range comes standard with an external kitchen. Embrace outdoor living with a full L-shaped stainless-steel external kitchen, generous pantry areas, a 3-burner gas stove with glass top and an 82L fridge freezer. If you're looking for more useable awning space and more cooking space than any other trailer on the market, the Quantum is for you.

*(QUANTUM, QUANTUM PLUS, QUANTUM FH, ODYSSEY, SIERRA)*

## CAN'T DECIDE, WE CAN DO BOTH!

The Aurora has all the creature comforts of home and more. Travel in true comfort and style with European décor, large water storage plus the benefits of an advanced solar system. Completing this brilliant design are the two extremely versatile kitchen areas. The standard large internal kitchen features a stainless-steel sink and drain board with hot and cold mixer tap, large preparation areas, 3 burner gas stove with glass top and a 175L upright fridge/freezer. The external kitchen includes a sliding stainless steel 2 burner grill, pantry, hot/cold sink and shelf to suit an optional BBQ. The Aurora and Odyssey are perfect for those wanting the possibility to cook in or outdoors.

*(AURORA, ODYSSEY)*

## INSIDE TOILET AND SHOWER A MUST?

The Quantum and Matrix model ranges include an internal ensuite with a hot shower, and marine macerator toilet system with 140 litre capacity. These models can also be fitted with grey water tanks plus our new industry leading recycled water system.

*(QUANTUM FAMILY, MATRIX FAMILY)*

## OR WOULD YOU PREFER AN OUTSIDE POD?

For the compact campers, the Sierra, Odyssey and Eclipse feature a handy outdoor shower pod. The newly designed rear shower pod features hot/cold water with a bug proof, zipped removable mesh floor for easy cleaning. The lightweight easy to use aluminium pod cover is lockable and totally dust proof.

*(SIERRA (OPTIONAL), ODYSSEY, ECLIPSE)*

## HOW ABOUT A LITTLE MORE LUXURY WITH A FULL ENSUITE?

The Aurora comes standard with an internal full ensuite. It has a separate marine macerator toilet system with 140 litre capacity and a separate shower and door, the bathroom is equipped with a vanity, large mirror and storage drawers. It can also be fitted with optional grey water tanks or a recycled water system.

*(AURORA)*

# Find a model that is right for you

# SIERRA

## #DISCOVER #OFFROAD #LIFE

*The extremely tough and durable external RAPTOR coating comes in three colours.  
So no pin striping if you head down narrow tracks.*

PLATOON

FIGHTER JET

DESERT STORM

## The camper's camper

*The stand-out feature of the Sierra is that you can get one in its base form and add features over time, DIY or with AOR's help and expertise. You can even bring some of your existing equipment and bolt it on.*

*Ready to move away from canvas? There is no tent and no canvas, yet it has a completely enclosed sleeping area and a roof over the kitchen.*

### SECURE BUNKER

Spacious, fixed roof sleeping quarters with large cross ventilation for all year comfort. Convenient internal hatches allowing you to access your front storage compartments while safe inside your trailer. Reading lights, fan, and 12V / USB mounted combo for extra comfort. The bunker is fully lockable from the inside and 100% dust proof.

### CAMPING YOUR WAY

With this custom designed Australian made trailer, there is ample storage for all your camping and sporting activities. Large external area in front nose cone, under the bed and four separate large storage areas, all with fully dustproof doors and high-quality compression locks.

### EXTREME ADVENTURES

This lightweight, extreme trailer has a genuine 40.7 degree exit angle, it's built to go the distance. Using AOR's proven and tested independent trailing arm suspension, variable rate coil spring and 2 x Outback Armour Offroad shocks per wheel for ultimate control and strength in all terrain. Compact storability in the garage when not in use.

### QUICK EASY KITCHEN

Large side mounted kitchen, stainless steel sink, bench spaces for cooking and food preparation, cabinetry with self-supporting hinges. Storage slide out for you to add your own cooker or choose one of AOR's options available. Dedicated and powered fridge area to add a dual stage fridge and BBQ slide out tray.

### STAY OFF THE BEATEN TRACK LONGER

Enough water and personal storage to keep you away from civilisation for weeks. Enjoy 60L of water storage in food poly grade tanks standard, all protected by zinc plated bash plates, including a river access system. Plus you can add an extra 140L optional tank for even longer stays off the beaten track.

### GAS & ELECTRICAL

The Sierra is powered and controlled by a 150a/h Lithium Battery, the FinScan PowerCORE battery management & automation system, switchable 240/ inverter power system, external 50amp Andersen plug, solar panel input, LED lights and a protected gas system with 2 bayonets.

*For the  
growing family!  
Add to your existing  
gear or buy the  
complete package.*

*Quality tested materials,  
lightweight and dustproof.  
Designed for easy camping  
with fast setup and pack up.*

## Did you know?

If you have an AOR in your sights but don't have the finance upfront, we've made it even easier for you to compare and save by partnering with Fox Finance Group.

As an Australian owned and operated business, partnering with another expert in their field, a reputable local business, made sense.

A number of customers decide to get Finance Pre-Approval before they choose their ideal AOR camper trailer. This is a free service that Fox Finance provide which can give you peace of mind knowing exactly what you can spend before hitting the shows or shops.

# YOUR SIERRA YOUR WAY!

## DISCOVER

### INTERNAL

- » Easy clean white fiberglass insulated (23mm thick) walls
- » Vertical bed head
- » Double bed with 6" multi density memory foam mattress, dust cover
- » Under bed storage area, gas strut assisted lift up bed base
- » Large tinted double glazed side window, fly screen & privacy blind
- » Internal hatches through to front storage compartments for clothes
- » 12V socket /dual USB combo x 2, mounted in vertical bed head
- » Sirocco fan
- » Stalk lights mounted on vertical bed head for reading
- » Roof mounted cargo net storage

### CHASSIS

- » Super gal high tensile steel & powdercoated chassis
- » 100x50mm full length drawbar
- » Fully articulated DO35 off road tow coupling rated for 3500kgs
- » Heavy duty stabilizer legs each corner & 2 rear recovery tow points
- » Triple front mounted mud flaps underbody protection + rear wheel
- » Stone protection under chassis for vulnerable piping + components

### BODY

- » Extremely tough, durable RAPTOR coating (three unique colours)
- » Unique 1950mm wide body to follow your 4WD anywhere
- » Lightweight fibreglass body with insulated walls, floor & roof
- » Slanted & faceted body design - offroad ability & aerodynamics
- » Light weight aluminum nose cone
- » Extreme ramp over / exit angle (40.7 degrees)
- » Fully faceted stone protection
- » Water tap fitted on left hand side of the nose cone
- » Triple lock rear entry door, fly screen, dust proof perimeter seals
- » Secure body using a lockable compression system
- » Secure cross ventilation in the sleeping area

### BRAKES, WHEELS, TYRES, SUSPENSION

- » AOR Independent trailing arm suspension, variable rate coil spring
- » Armour Offroad shocks per wheel for ultimate control
- » Removable jockey wheel
- » 12" Electric drum brakes & 2500kg bearings
- » 17 x 8 Black steel wheels
- » 285/70R17 Cooper Evolution MT tyres

# YOUR OWN ADVENTURE

## GET OFF THE BEATEN TRACK LONGER

### KITCHEN

- » Large side mounted kitchen with stainless steel sink & splash back
- » Overhead cabinets with self supporting hinges
- » Cabinetry with storage drawer
- » Spacious bench with large preparation and cooking areas
- » Lift up benchtop with under bench storage for pots & pans
- » Gas cooktop storage mount & slide (cooktop not included)
- » Storage drawer above stove cabinet

### WATER

- » 60L of water storage in food grade poly tank (additional 140L optional)
- » Bash plates on all exposed sides of tanks for total protection off-road
- » River access system allows drawing from an external water source while bypassing all water tanks

### STORAGE

- » Large external storage area in front nose cone with top access
- » Under bed storage with lift up bed base
- » Optional fridge storage area with self supporting slide
- » 3 large storage areas, fully dustproof, high quality compression locks
- » Tunnel front boot with marine seals for carrying poles & accessories
- » Spare tyre stored under bed

### GAS + ELECTRICAL

- » Internal swivel LED strip lights (individually switched)
- » Dual colour yellow/white LED lights external
- » 150AMP Lithium battery
- » FinScan PowerCORE battery management & automation system
  - Unit incorporates 12V 30AMP charger,
  - MPPT solar regulator,
  - 240V AC Charging 3.5" touch screen,
  - Display mobile device connectivity,
  - Has the capacity to switch lights on & off,
  - Check water tank levels,
  - Battery usage & remaining capacity
- » External Andersen plug for external solar panel input
- » Gas system with 2 external bayonets

# HANDLES WITH EASE

## Did you know?

100% dustproof is a big claim but we achieve this in every trailer we build by being fanatical about sealing.

All intrusions through the one-piece fiberglass monocoque body are sealed in production, tested and inspected at two different QC stations. Once assembly is finalised the van is locked up, filled with smoke and pressure tested to 25psi to ensure there are no other leaks outside or under the van. After all it only takes a pin hole to show major dust intrusion if travelling on dirt roads for thousands of kilometers at speed. All trailers with internal cooktops are fitted with our unique filtered air pressure system. This proven system forces clean air into the van at speed resulting in a positive internal pressure thus forcing any dust out of the van if a leak should occur.

100% dust proof

## WANTING EXTRA INTERNAL SPACE

### *Did you know?*

If you're remote camping in national parks, chances are you will rely on your solar system.

Our trailers are fitted with 300 watts of solar power (Aurora 480 watt), linked to the FinScan PowerCORE battery management system. This system supplies double what the trailer requires for normal use, with more in your bank for a rainy day. The panels are light weight and mounted to operate at maximum voltage year-round. We also fit an additional Anderson Plug input circuit suitable for adding an extra solar panel.

## SELF-SUFFICIENT, ELEGANT

# OFF ROAD SUPER CAMPER

## Did you know?

We have developed our environmentally conscious macerator toilet system, sourced from the marine industry, over the last 8 years to a highly functional luxury convenience.

It uses no more water than a normal electric cassette toilet as found in all other caravans. The wastes are collected in a 140L black tank which can be disposed at a council or caravan park dump point. Stay remote for longer, with the large capacity tank allowing stays up to seven times that of a normal cassette system). Designed and fully developed to give you the ultimate outback remote camping experience.

macerator & black tank

## OFF ROAD ENTHUSIAST

# OUTSIDE LIFESTYLE

## Did you know?

Whether you like cooking inside, outside or both, we've got you covered.

The Odyssey and Sierra have a standard external kitchen with an internal fridge (also accessible from outside).

The Quantum and Q+ include state of the art external stainless-steel kitchens with five separate pantry sections. This design allows for maximum living space under the awning.

The Eclipse (optional), Matrix and MPT incorporate internal kitchens with large bench and drawer spaces, and a stainless-steel BBQ slide outside or choose from a variety of external full stainless-steel slide out kitchens.

The Aurora is fitted with a beautiful big functional internal kitchen that can be optioned with a washing machine, microwave or grill. Externally we have also fitted a stainless-steel BBQ slide with two burner grill and sink (with hot/cold water).

## CAMP SPOTS AND 4×4 TRACKS

*Did you know?*

Travel remotely with enough water for weeks on end. Our trailers are fitted with 2 x 140L water tanks (excluding Sierra, Odyssey and Eclipse).

If you think you may need more, option up with a 60L pure water drinking tank, perfect for extended Outback stays. We also offer a 60L grey water tank option. Our water recycle system for all our trailers fitted with internal showers is industry leading, recycling water flowing from the shower drain into the macerator toilet flush 20L tank.

## A NEW DIMENSION

## IN REMOTE AREA TRAVEL

### *Did you know?*

Our optional folding bunk beds are a comfy, simple solution to travelling off road with kids and are removeable.

Quick and easy setup, the dinette can be converted into a single bunk with a removable table and cushion insert. Simply fold down at night, or up during the day out of the way.

There are options for a third single bed, depending on your model.
