

RAPTOR MIXING

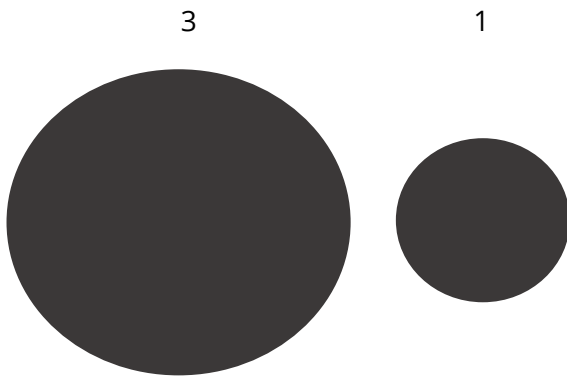

Samples provided are pre-mixed RAPTOR with colour.

This needs to be mixed with hardener at a ratio 3:1.

NOTE: do not mix the hardener into the tin of colour provided.

Stir the colour tin and then pour a small amount into another small mixing cup and then add the hardener.

Example of 3:1 mixing ratio

When mixing it is recommended gloves and eye protection is worn.

Clean up with thinners or acetone (nail polish remover).

KEEP OUT OF REACH OF CHILDREN
